MONDO TV is considered the “growing” company in Europe in animation production nowadays, and it is noticeable that it changed a lot of its direction and style of doing business by developing since 2008 the Licensing & Merchandising side to complete the circle of kids productions programs and related business. We are

preparing to market a wide variety of TV shows targeted for girls and boys, preschool programs, and kids/ tweens till up to 12 years old. Thanks to a solid alliance with the American toy company M.E.G. Toys, along with GIOCHI PREZIOSI, we are bringing to the market 2010 / 2011 the animated cartoons series of the successful brand.

### Dinofroz

Four childhood buddies find a way of accessing a parallel time dimension, where they find themselves as dinosaurs, in the middle of a never-ending war with dragons!

### Puppy in My Pocket

The adventures take place both in the fantastical world, Pocketville, where the pets live before they're assigned to a child in need of a friend; and in the 'real world' where children in need of friends are matched with pets.

### Playtime Buddies

Each Playtime Buddies story encourages the development of positive social interaction and cognitive skills. “Because that’s what Buddies do!” is the recurring underlying message of sharing as communicated in each new Playtime Buddies episode. Playtime Buddies offers an imaginative palette of characters and a wide array of stories. The property features both real life role models, such as bakers, cowboys, policemen, firefighters, athletes and farmers, and the fantasy characters who inhabit the imaginations of children; like pirates, mermaids, princesses and superheroes.

### Virus Attack

Hundreds of years ago, the inhabitants of a pacific town were kidnapped by a supreme and evil mind to be transported to planets used as incubation machines, where they would be mutated into monstrous viruses in order to conquer the Earth.

### Trash Pack

A typical afternoon in Garden City. Down the highway go a stream of garbage trucks, all heading for Trash Town, the place where anything people want to get rid of is sent. All without any idea of the weird and wacky things that happen in Trash Town. Everything’s mechanized here. Practically no people at all, except in the office. And, of course, Ray and Jenny, the son and daughter of Dad Webb, who runs Trash Town. And today’s a typical day... Except... while chasing after one of the robo-haulers, Ray and Jenny come around a corner only to see a flattened piece of chewing gum, Bubbly, pop up in front of Cheezy and Pips...Trash that moves! And talks!! And laughs!!!
